Obama is putting climate change front and centre – once again

Barack Obama heads to Alaska on mission to highlight climate change

The president will trek across melting glaciers and visit threatened coastal communities but critics decry decision to allow Shell to drill for oil in Arctic

President Barack Obama waves from the top of the steps of Air Force One at Andrews air force base in Maryland on Monday as he sets off on a three-day trip to Alaska. Photograph: Susan Walsh/AP

Climat : Obama sera-t-il vraiment le meilleur allié de la COP21 ?

Barack Obama will use a trek across Alaska's melting glaciers and permafrost to showcase the fight against climate change during a three-day visit to the state starting on Monday.

But the president, who departed for Anchorage in Air Force One on Monday morning, was accused of damaging his own environmental legacy – and the effort
