

## Preliminary Schedule: Health and Environment with special focus on climate and sustainability

Date	Time	Theme	Title	Lecturer
<b>Week 35</b>				
2021-08-30	9-10	Intro	Intro to the course including individual course paper	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-08-30	10-12	Intro	Intro Environmental Epidemiology	Researcher, Anna Oudin, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-08-30	13-15	Intro	Intro to climatology, climate change and the SDGs	Environmental Hygienist, Jörgen Olofsson, PhD, Clinic of Occupational and Environmental Medicine, Region Skåne
2021-09-01	10-12	Exercise	Health aspects in the Sustainable health goals	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-01	13-15	Water	Coastal erosion and flooding in a changing climate	Caroline Hallin, PhD, Reseracher, Division of Water Resources Engineering
2021-09-03	9-12	Water	Drink water quality and health	Prof. Kenneth M Persson, Division of Water Resources Engineering
2021-09-03	13-15	Water	The role of genetics in a changing climate	Prof. Karin Broberg, Division of Occupational and Environmental Medicine, Lund University
2021-09-03	15-16	SDG discussion	Focus on water	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
<b>Week 36</b>				
2021-09-06	13-15	Heat	Heat, cold and health	Researcher, Christofer Åström, Section of sustainable health, Umeå University
2021-09-06	15-16	Heat	Urban heat islands - How to plan for a cooler city	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-08	10-12	Heat	Occupational exposure to heat in Central america and other places	Prof. Kristina Jakobsson, School of Public Health and Community Medicine, Gothenburg University
2021-09-08	13-16	Exercise	Vulnerable groups in relation to health and environment	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University

2021-09-10	13-15	Heat	Vector borne diseases and climate	Prof. Joacim Rocklöv, Department of Public Health and clinical medicine, Umeå university
2021-09-10	15-16	SDG discussion	Focus on heat	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
<b>Week 37</b>				
2021-09-13	9-12	Lifestyle and diet	Changed behavior as a result of climate change	Prof. Maria Johansson, Department of Architecture and Built Environment, Lund university
2021-09-13	13-15	Lifestyle and diet	Environmental psychology and mental wellbeing	Prof. Maria Johansson, Department of Architecture and Built Environment, Lund university
2021-09-15	10-12,13-15	Exercise	Environmental psychology	Prof. Maria Johansson, Department of Architecture and Built Environment, Lund university
2021-09-17	10-12	Lifestyle and diet	Diet, health and climate	Nutritionist, Elinor Hallström, PhD, RISE
2021-09-17	13-15	Lifestyle and diet	Sustainable apparel production	Senior Program Officer, Jonah Wigerhäll, Raoul Walleberg Institute
2021-09-17	15-16	SDG discussion	Focus on lifestyle, work and diet	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
<b>Week 38</b>				
2021-09-20	10-12	Air	Pesticides and health	Researcher, Christian Lindh, Division of Occupational and Environmental Medicine, Lund University
2021-09-20	13-15	Air	Health impact assessments	Researcher, Anna Oudin, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-20	15-17	Air	Air pollution epidemiology and climate	Researcher, Anna Oudin, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-22	8-9	General	How the art has reacted on climate change	Lecturer, Sofie Lebech, PhD, Malmö Theatre Academy
2021-09-22	9-10	Exercise	Exercise Malmö Theatre Academy	Lecturer, Sofie Lebech, PhD, Malmö Theatre Academy
2021-09-22	10-12	The built environment	Noise, transportation and health	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-22	13.00-14.30	The built environment	Goal conflicts in societal planning	Public health strategist, Peter Groth, Department of regional development, Region Skåne
2021-09-22	14.30-16.30	Exercise	Synergies and conflicts	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-24	9-10	The built environment	Climate adaptation on regional level	Environmental Hygienist, Jörgen Olofsson, PhD, Clinic of Occupational and Environmental Medicine, Region Skåne
2021-09-24	10-12	The built environment	Indoor environment and	Researcher, Emilie Stroh, PhD, Division of Occupational and Environmental Medicine, Lund University

			health in a changing climate	
2021-09-24	13-15	Exercise	Synergies and conflicts	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
2021-09-24	15-16	SDG discussion	Focus on air and the built environment	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
<b>Week 39</b>				
2021-09-27	8.30-10.00	General	Myndigheters arbete med klimat	Representative from the Public Health Agency of Sweden
2021-09-27	9-12	Exercise	Malmö Theatre Academy	Lecturer, Sofie Lebeck, PhD, Malmö Theatre Academy
2021-09-29	9-15	Examination	Presentation In-Depth project	Associate researcher, Kristoffer Mattisson, PhD, Division of Occupational and Environmental Medicine, Lund University
