

PRELIMINARY VERSION – MAY BE SUBJECT TO CHANGE

Sustainability impacts and Societal Relevance in Research Proposals

6 September - 16 December, Lund University (3 ECTS)

Lectures will be online (Zoom). The workshops may have a hybrid format – please see the programme of each workshop for details.

Time and date	Type	Title	Leader
tbd	Lecture (3 h)	Introduction – approaches to estimating social and environmental impacts	Helen Avery
4 October 2022 10.00-12.00	Lecture	Systems science-based and stakeholder participatory modelling process	Deniz Koca
11 October 2022 8.00-10.00	Lecture	Aerosols as air pollutants and short-lived climate forcers - challenges with past and future projections	Pontus Roldin
16 December 2022 10.15-15.00	Examination seminar		Helen Avery

Course participants will be expected to attend two workshops on sustainability organised by the LU Strategic Research Areas in collaboration with Sustainability Forum. Dates and content will be updated shortly.

Each workshop will be followed by a 90-minute discussion session within our course group.

Examination: attendance and active participation in two workshops; discussion with peers or senior researchers in own research environment; oral reflection on proposal-writing experience/prospects and discussion at the examination seminar; short written reflection on proposal-writing experience/prospects (3 pages)

Details on how to register for the workshops, content of these workshops and previous workshops in the series can be found on the Sustainability Forum website: [Workshop series on the Sustainable Development Goals | Sustainability Forum \(lu.se\)](#)

For any questions concerning content or format of the course, please contact Helen Avery
