

Presenting Climate-KIC Nordic

October 2015

Climate-KIC Nordic Centre

Technical University of Denmark

UNIVERSITY OF
COPENHAGEN

CHALMERS
UNIVERSITY OF TECHNOLOGY

VELUX®

GRUNDFOS®

- Opened in February 2014
- Based at DTU – the Technical University of Denmark
- Hub for Climate-KIC activities in the Nordic countries

ROCKWOOL®
FIRESAFE INSULATION

COWI

novozymes®
Rethink Tomorrow

KØBENHAVNS KOMMUNE

Johanneberg
Science Park

Scion DTU
Science and Technology Park

NTNU

Norwegian University of
Science and Technology

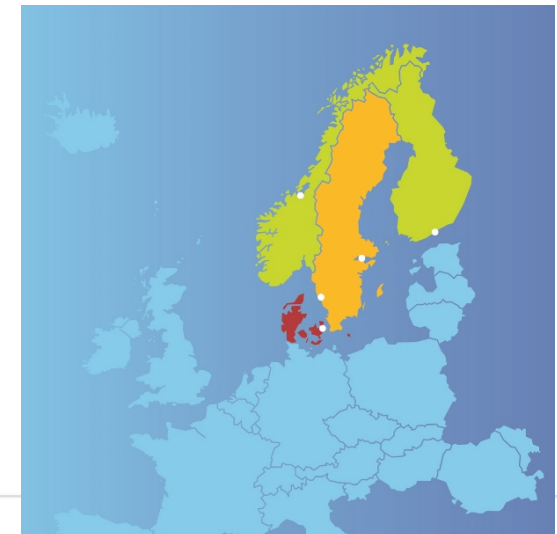

LUND
UNIVERSITY

A!

Aalto University

Expansion of the Nordic network:

- **Cities:** In negotiation with the City of Gothenburg and Malmö, Sweden and Helsinki, Finland
- **Possible city candidates:** Trondheim, Bergen, Oslo, Norway and Aarhus, Vejle, Denmark.
- **Nordic Commercial companies**

Activity areas

Education

- Labelling
- E-learning
- Executive Education
- Summer schools (Journey Themes)
- Master classes – politics & entrepreneurship
- Green House activities
- Support to PhDs

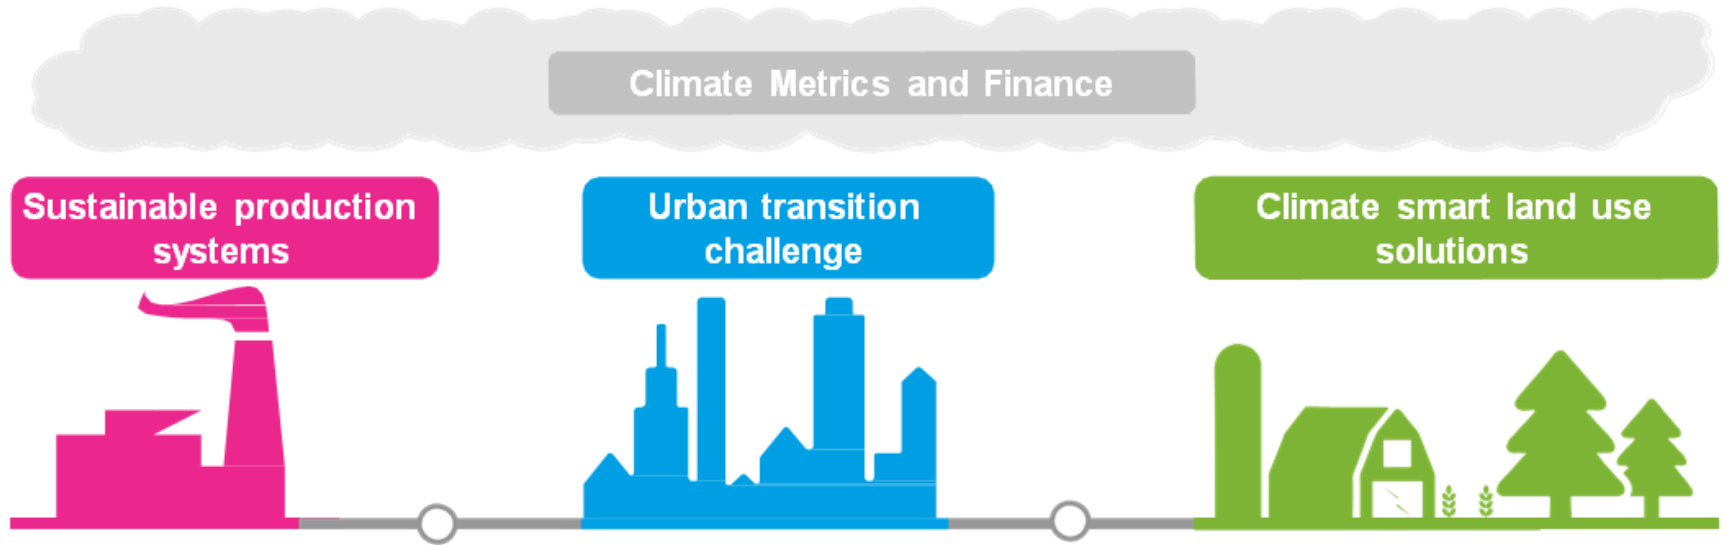

Entrepreneurship

- Venture Competition
- ClimateLaunchpad
- Acceleration program
- Climathons

Innovation

- Projects on several levels:
- Demonstration and scaling of new innovations
- Innovation Festival
- Open Innovation Days

Four themes

Production systems produce the building materials that are used in *Cities* and the consumption goods that are used by *urban end users*. *Agriculture and land use systems* produce food for urban users and bio-feed stocks for the *production industry*. These interlinked systems produce the majority of our greenhouse gases and at the same time are vulnerable to changing climates.

Climate-KIC focusses on bringing together different stakeholders within and between each of these sectors, help them find and test the best innovative solutions and scales up successful innovations.

The ***Climate Metrics and Finance*** theme will use climate measurement to incentivise companies and financial institutions to shift their focus towards sustainable investment strategies. The theme will also support other Climate-KIC themes with impact measurement.

Lund University and Climate-KIC

Perfect fit: Climate-KIC membership underpinning LU's wish to ensure collaboration with many diverse partners on the green transition focusing on:

- Smart Land Use
- Green Mobility
- Urban Sustainability

Students & Education:

- LU hosting a pan-European *Journey* summer school 2 weeks this summer
- LU sent 11 out of 40 Nordic students as participants in other European *Journeys*
- LU jury member at the final week of pitching ideas for 90 summer school participants

Startups: Dynamic European and Nordic start-up network.

Five LU recommended companies have entered the Nordic *Accelerator* program.

Accelerator boot camp on **9-10 Oct.** in Lund for all Nordic Accelerator startups

Cleantech Innovation Camp: Invitation to one week [Cleantech Innovation Camp](#) for Nordic students in collaboration with leading Nordic companies – **9-15 November** at the University of Copenhagen

Lund University and Climate-KIC

City and regional network: Collaboration with other city/regional partners within Climate-KIC as a whole or the Nordic part

[Nordic Cities workshop](#) in September with participation of [Malmö city and LU](#) in Copenhagen, next in Helsinki on [9 Nov](#)

– next stop [Malmö](#)?

Open Innovation: Climate-KIC partners (especially cities and corporates) can pose open innovation challenges and have others work out solutions. 56 solution providers from 16 countries responded towards challenges from [Copenhagen](#). The 15 best pitched at a big [Open Innovation](#) event on [2 October](#).

– Perhaps a [Swedish](#) corporate partner or city next?

Ideation: [#Climathons](#) – 24 hours for city-level solutions to climate change

6 continents, 20 global cities simultaneously on 18 June, including *Climathons* in Gothenburg, Helsinki and Copenhagen – next stop [Malmö](#) or [Lund](#)?

LET'S GET STARTED!
