

A BECC SUPER SEMINAR ABOUT

ECOSYSTEM SERVICES

8 JUNE AT 10:30-15:00

GRETCHEN DAILY Valuing Nature in Business and Policy

STANFORD UNIVERSITY

Gretchen Daily is Bing Professor of Environmental Science in the Department of Biology; Senior Fellow in the Woods Institute for the Environment; and Director of the Center for Conservation Biology at Stanford University.

She is also one of the founders of The Natural Capital Project, a partnership among Stanford University, The Nature Conservancy, World Wildlife Fund, and the University of Minnesota, whose goal is to align economic forces with conservation.

Today she is a co-director for the Natural Capital Project and serves as its chief emissary to financial and government leaders.

How does the Swedish EPA work with Ecosystem services?

SWEDISH ENVIRONMENTAL PROTECTION AGENCY

The Swedish Environmental Protection Agency is the public agency in Sweden that has an overview of conditions in the environment and progress in environmental policy. The Agency works on behalf of the Swedish Government and shall among other things * help to develop environmental policy by providing the Government with a sound basis for decisions and by giving an impetus to EU and international efforts.

RESEARCH

BECC is a strategic research area between Lund University and University of Gothenburg comprising more than 200 researchers.

Together we work for a better understanding of the impacts of climate change and land use decisions on terrestrial ecosystems and biodiversity, addressing the consequences of ecosystem changes for human beings and socio-economic systems.

Venue: Blå Hallen, Ekologihuset, Sölvegatan 37, Lund

Register for seminar and lunch (open link to webform)
Last day of registration: 4 June

The seminar is open for everyone. Welcome!
